EVERYTHING IN ONE PLACE

One platform for the counter, the storeroom and the books.

Smart POS

Cash, transfer, POS machine, split payment, credit sales and sales on hold.

Hospital workflow

Reception → triage → doctor → pharmacy, tracked in real time.

Staff & roles

Role-based access — each staff member only sees what they need.

Inventory

Stock levels, cost price, margins, Excel import and barcode scanning.

Financial reports

Revenue, expenses and profit breakdown, exportable to Excel.

Works offline

Sell without internet and sync automatically when you are back online.

Consultations

Tailored forms for each business type — pharmacy, hospital, skincare and more.

CareFind listing

Get discovered by patients searching for healthcare near them.

Multi-location

One login, multiple branches, side-by-side performance.

HOW IT WORKS

Selling within the hour, not the week.

Register your business

Pick your business type and set up your first location in under five minutes.

Add products or services

Import via Excel or add them one by one — prices, stock levels, reorder points.

Start selling

Ring up sales at the POS while CareFind brings new patients to your door.

TRUSTED ACROSS NIGERIA

Calm software at busy counters.

“

We stopped guessing. Stock, sales and the books finally agree at the end of every day.
